About Me

I'm presently completing an apprenticeship in software development at a large German bank. As my interest in web development awakened, I began learning relevant technologies in the Javascript ecosystem during my free time. I hope to further improve my skills and knowledge by building various web applications.

Experience

Commerzbank AG 2020 - Present

Apprentice Software Development

Developing smaller Python applications with pandas and matplotlib. Most of them serve the purpose of getting insights into the development of product costs or production stability.

Volunta gGmbH 2017 - 2018

Voluntary Social Year

Doing miscellaneous tasks to support the team at a daycare facility for drug-dependent people.

Education

2018 - 2020

Dropped out due to the Covid crisis.

*Goethe University
Frankfurt am Main*

2017 - 2018

Major in business administration

Rodalber Berufsschule

Abitur
